SPECIALIZING MASTER IN

FASHION CREATION: ACCESSORY DESIGN

X EDITION – JANUARY 2023

GENERAL OVERVIEW

Today, accessories make fashion. Shoes, jewelry, handbags and hats are the icons of style and taste, symbols of distinction and identity but also witnesses of the made in Italy quality. For this reason the major fashion brands always give more importance to accessories in its multiple interpretations requiring dedicated professionals. Accessories also intersect with the high-tech performance materials.

Designed in accordance with the spirit and tradition of the Politecnico di Milano, the Specializing Master allows you to combine hand and mind, experimentation and tradition, technology and craftsmanship, prototype and industrial production, in collaboration with some of the largest companies in the sector.

TRAINING OBJECTIVES

The Specializing Master provides the methodological tools and the design skills to become accessory designer, with professional application ranging from fashion to product and combining superior craftsmanship with high technology.
