GENERAL ASSEMBLY AND INTERNATIONAL MEETING

Florence Italy 23/24/25
September 2022

30th
ANNIVERSARY
1992 - 2022

FIRENZE 

Palazzo Medici Riccardi - Firenze

Galleria degli Specchi (*Luca Giordano 1682 - 1685*)

The Gallery of Mirrors (Luca Giordano), is a monumental room known for the cycle of frescoes in the vault made by Luca Giordano between 1682 and 1685, praising the Apotheosis of the Medici dynasty.

Commissioned in 1444 by Cosimo the Elder, the residence of the Medici family constitutes a model of civil architecture in the Renaissance. Its design was entrusted to the architect Michelozzo, to the detriment of the project by his colleague Filippo Brunelleschi, judged by Cosimo as being “too sumptuous and magnificent” and “more likely to stir up envy him among his fellow citizens than to confer grandeur or adornment on the city, or bring comfort to himself” (G. Vasari, 1568).

Workplace of artists of the calibre of Donatello, Michelangelo, Paolo Uccello, Benozzo Gozzoli and Botticelli. The Renaissance house... where it all began.
